Don't Let Your Liver Loaf.

When you feel "all in," lack ambition, have no appetite and "don't care whether school keeps or not," it's your liver. It is torpid—not doing its duty—and, of course, you are constipated. The bodily waste, loaded with poisons, is being retained in the bowels and partly re-absorbed into the blood. Can you wonder if you feel heavy and listless?

Koiner Defeuds Department.

Mr. Koiner took up the value of the monthly bulletins sent out from his department. He characterized the charges as vague, and stated that when he took charge of the Department of Agriculture its annual fund was \$6,-600, with a "little sham of a law to protect fertilizers." The fertilizer tax pow yields more than \$65,000 a year for the use of the department. The charges, Mr. Koiner said, were the "same old straw thrashed over four years ago." The fertilizer law now in force, he claimed, was the most rigorous of any State. In answer to Mr. Brown's claim to have been a patron of the State good roads amendment in the Constitutional Convention, Mr. Koiner said he didn't have anything to do with roads. "He doesn't know what the work of the department is," said Mr. Koiner. "He complains that the for toads."
